Frayn KN & Edge P *British Journal of Nutrition* goes live (Editorial). 1
Davidsson L Are vegetarians an 'at risk group' for iodine deficiency? (Invited commentary). 3
Langley-Evans SC Fetal origins of adult disease (Invited commentary). 5
Bender DA Non-nutritional uses of vitamin B_6. 7
Quiles JL, Huertas JR, Mañas M, Battino M & Mataix J Physical exercise affects the lipid profile of mitochondrial membranes in rats fed with virgin olive oil or sunflower oil (Short communication). 21
Shishehbor F, Roche HM & Gibney MJ The effect of low and moderate fat intakes on the postprandial lipaemic and hormonal responses in healthy volunteers. 25
Beck AM, Ovesen L & Osler M The 'Mini Nutritional Assessment' (MNA) and the 'Determine Your Nutritional Health' Checklist (NSI Checklist) as predictors of morbidity and mortality in an elderly Danish population. 31
Jones AE, Stolinski M, Smith RD, Murphy JL & Wootton SA Effect of fatty acid chain length and saturation on the gastrointestinal handling and metabolic disposal of dietary fatty acids in women. 37
Remer T, Neubert A & Manz F Increased risk of iodine deficiency with vegetarian nutrition. 45
Jackson KG, Zampelas A, Knapper JME, Culverwell CC, Wright J, Gould BJ & Williams CM Lack of influence of test meal fatty acid composition on the contribution of intestinally-derived lipoproteins to postprandial lipaemia. 51
López S, Valdés C, Newbold CJ & Wallace RJ Influence of sodium fumarate addition on rumen fermentation *in vitro*. 59
Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK Dietary rhubarb (*Rheum rhaponticum*) stalk fibre stimulates cholesterol 7α-hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. 65
Holemans K, Gerber R, Meurrens K, De Clerck F, Poston L & Van Assche FA Maternal food restriction in the second half of pregnancy affects vascular function but not blood pressure of rat female offspring. 73
Cruickshank K Global energy requirements, ethnicity, representative samples and basal metabolism: what can we really tell the world? (Letter to the Editors). 81
Gibson GR & Williams CM Gut fermentation and health advantages: myth or reality (Invited commentary). 83
Fields M Role of trace elements in coronary heart disease (Invited commentary). 85
Leskanich CO & Noble RC The comparative roles of polyunsaturated fatty acids in pig neonatal development. 87
Makkar HPS & Becker K Purine quantification in digesta from ruminants by spectrophotometric and HPLC methods (Technical Report). 107
Bochereau L & Breslin L The European research and technological development programmes concerning food, nutrition and health (Special Report). 113
Emery PW, Bosagh Zadeh AR & Wasylyk A The effect of malnutrition on the metabolic response to surgery. 115
Van Loo J, Cummings J, Delzenne N, Englyst H, Franck A, Hopkins M, Kok N, Macfarlane G, Newton D, Quigley M, Roberfroid M, van Vliet T & van den Heuvel E Functional food properties of non-digestible oligosaccharides: a concensus report from the ENDO project (DGXII AIRII-CT 94-1095). 121
Romagnoli E, Caravella P, Scarnecchia L, Martinez P & Minisola S Hypovitaminosis D in an Italian population of healthy subjects and hospitalized patients. 133
Klipstein-Grobusch K, Grobbee DE, Koster JF, Lindemans J, Boeing H, Hofman A & Witteman JCM Serum caeruloplasmin as a coronary risk factor in the elderly: the Rotterdam study. 139
Sanchez-Gomez M, Malmlöf K, Mejia W, Bermudez A, Ochoa MT, Carrasco-Rodriguez S & Skottner A Insulin-like growth factor-I, but not growth hormone, is dependent on a high protein intake to increase nitrogen balance in the rat. 145

Palmer RM, Nieto RM, Lobley GE, Da Silva P, Thom A & Thompson MG Translocation of protein kinase C isoforms in rat muscle in response to fasting and refeeding. 153
Flo G, Vermaut S, Darras VM, Van Boven M, Decuypere E, Kühn ER, Daenens P & Cokelaere M Effects of simmondsin on food intake, growth, and metabolic variables in lean (+/?) and obese (*falfa*) Zucker rats. 159
Zorich N, Allgood G & Peters J Sucrose polyester in human volunteers (Nutrition Discussion Forum). 169
Kelly SM & Hunter JO Sucrose polyester in human volunteers (Reply) (Nutrition Discussion Forum). 170
Cottee S Nutrition for the Critically Ill. A Practical Handbook (Book review). 173
Webb GP Salt, Diet and Health (Book review). 173
van den Berg H Vitamin B_6 status and requirements in older adults (Invited commentary). 175
Rudel LL Atherosclerosis and conjugated linoleic acid (Invited commentary). 177
Semba RD & Tang AM Micronutrients and the pathogenesis of human immunodeficiency virus infection. 181
Bates CJ, Pentieva KD, Prentice A, Mansoor MA & Finch S Plasma pyridoxal phosphate and pyridoxic acid and their relationship to plasma homocysteine in a representative sample of British men and women aged 65 years and over. 191
Gray AM & Flatt PR Insulin-releasing and insulin-like activity of the traditional anti-diabetic plant *Coriandrum sativum* (coriander). 203
Johansson L, Thelle DS, Solvoll K, Bjørneboe G-Ea & Drevon CA Healthy dietary habits in relation to social determinants and lifestyle factors. 211
Bos C, Mahé S, Gaudichon C, Benamouzig R, Gausserès N, Luengo C, Ferrière F, Rautureau J & Tomé D Assessment of net postprandial protein utilization of ^{15}N-labelled milk nitrogen in human subjects. 221
Kurihara M, Magner T, Hunter RA & McCrabb GJ Methane production and energy partition of cattle in the tropics. 227
Jewell C & O'Brien NM Effect of dietary supplementation with carotenoids on xenobiotic metabolizing enzymes in the liver, lung, kidney and small intestine of the rat. 235
Rees WD, Hay SM, Buchan V, Antipatis C & Palmer RM The effects of maternal protein restriction on the growth of the rat fetus and its amino acid supply. 243
Munday JS, Thompson KG & James KAC Dietary conjugated linoleic acids promote fatty streak formation in the C57BL/6 mouse atherosclerosis model. 251
Frayn KN Introduction to Nutrition and Metabolism (Book review). 257
Blundell JE & Naslund E Glucagon-like peptide-1, satiety and appetite control (Invited commentary). 259
Watford M Is there a requirement for glutamine catabolism in the small intestine? (Invited commentary). 261
Barry TN & McNabb WC The implications of condensed tannins on the nutritive value of temperate forages fed to ruminants. 263
Long SJ, Sutton JA, Amaee WB, Giouvanoudi A, Spyrou NM, Rogers PJ & Morgan LM No effect of glycagon-like peptide-1 on short-term satiety and energy intake in man. 273
Vidal-Quintanar RL, Mendívil RL, Peña M & Fernandez ML Lime-treated maize husks lower plasma LDL-cholesterol levels in normal and hypercholesterolaemic adult men from northern Mexico. 281
Hurrell RF, Reddy M & Cook JD Inhibition of non-haem iron absorption in man by polyphenolic-containing beverages. 289
Gate JJ, Parker DS & Lobley GE The metabolic fate of the amido-N group of glutamine in the tissues of the gastrointestinal tract in 24 h-fasted sheep. 297
Atasoglu C, Valdés C, Newbold CJ & Wallace RJ Influence of peptides and amino acids on fermentation rate and *de novo* synthesis of amino acids by mixed micro-organisms from the sheep rumen. 307
Hara H, Suzuki T, Kasai T, Aoyama Y & Ohta A Ingestion of guar-gum hydrolysate partially restores calcium absorption in the large intestine lowered by suppression of gastric acid secretion in rats. 315
James LA, Lunn PG, Middleton S & Elia M Glutamine oxidation and utilization by rat and human oesophagus and duodenum. 323
Chang S-C, Chiang B-L, Wu W-M & Lin B-F Different dietary fats influence serum and tissue lipids and anti-cardiolipin antibody levels in autoimmune-prone NZB/W F1 mice. 331

Fielding B The Fats of Life (Book review). 341
Houston DC Comparative Avian Nutrition (Book review). 341
Hill MJ Nitrate toxicity: myth or reality (Invited commentary). 343
Prentice AM The thymus: a barometer of malnutrition (Invited commentary). 345
McKnight GM, Duncan CW, Leifert C & Golden MH Dietary nitrate in man: friend or foe? 349
Cuthbertson WFJ Evolution of infant nutrition. 359
Elia M, Khan K & Jennings G Effect of mixed meal ingestion on fuel utilization in the whole body and in superficial and deep forearm tissues. 373
Metz JA, Morris CD, Roberts LA, McClung MR & McCarron DA Blood pressure and calcium intake are related to bone density in adult males. 383
Ørskov ER, Meehan DE, MacLeod NA & Kyle DJ Effect of glucose supply on fasting nitrogen excretion and effect of level and type of volatile fatty acid infusion on response to protein infusion in cattle. 389
Ghebremeskel K, Bitsanis D, Koukkou E, Lowy C, Poston L & Crawford MA Maternal diet high in fat reduces docosahexaenoic acid in liver lipids of newborn and sucking rat pups. 395
Malpuech-Brugère C, Nowacki W, Gueux E, Kuryszko J, Rock E, Rayssiguier Y & Mazur A Accelerated thymus involution in magnesium-deficient rats is related to enhanced apoptosis and sensitivity to oxidative stress. 405
Eley S Nutrition research using electronic mail (Nutrition Discussion Forum). 413
Wise A Using the Internet in nutrition research (Reply) (Nutrition Discussion Forum). 414
Westerterp-Plantenga MS Use of a general information and communication technology aspect for a specific aim (Reply) (Nutrition Discussion Forum). 416
Zock PL & Katan MB Ways to reduce saturated fat intake (Invited commentary). 421
Duthie GG Parsley, polyphenols and nutritional antioxidants (Invited commentary). 425
Walker ARP & Segal I Iron overload in Sub-Saharan Africa: to what extent is it a public health problem? 427
Ventham JC & Reilly JJ Reproducibility of resting metabolic rate measurement in children (Short communication). 435
Williams CM, Francis-Knapper JA, Webb D, Brookes CA, Zampelas A, Tredger JA, Wright J, Meijer G, Calder PC, Yaqoob P, Roche H & Gibney MJ Cholesterol reduction using manufactured foods high in monounsaturated fatty acids: a randomized crossover study. 439
Nielsen SE, Young JF, Daneshvar B, Lauridsen ST, Knuthsen P, Sandström B & Dragsted LO Effect of parsley (*Petroselinum crispum*) intake on urinary apigenin excretion, blood antioxidant enzymes and biomarkers for oxidative stress in human subjects. 447
Lapierre H, Bernier JF, Dubreuil P, Reynolds CK, Farmer C, Ouellet DR & Lobley GE The effect of intake on protein metabolism across splanchnic tissues in growing beef steers. 457
Park W-Y, Matsui T, Konishi C, Kim S-W, Yano F & Yano H Formaldehyde treatment suppresses ruminal degradation of phytate in soyabean meal and rapeseed meal. 467
Kudryavtseva MV, Besborodkina NN & Kudryavtsev BN Restoration of the glycogen-forming function of hepatocytes in rats with liver cirrhosis is facilitated by a high-carbohydrate diet. 473
Holness MJ, Fryer LGD & Sugden MC Protein restriction during early development enhances insulin responsiveness but selectively impairs sensitivity to insulin at low concentrations in white adipose tissue during a later pregnancy. 481
Diplock AT, Aggett PJ, Ashwell M, Bornet F, Fern EB & Roberfroid MB Scientific Concepts of Functional Foods in Europe: Consensus Document. S1
Foreword. S29
Koenig J & Elmadfa I Food-based dietary guidelines – the Austrian perspective. S31
De Henauw S & De Backer G Nutrient and food intakes in selected subgroups of Belgian adults. S37
Haraldsdóttir J Dietary guidelines and patterns of intake in Denmark. S43
Valsta LM Food-based dietary guidelines for Finland – a staged approach. S49
Volatier J-L & Verger P Recent national French food and nutrient intake data. S57
Hermann-Kunz E & Thamm M Dietary recommendations and prevailing food and nutrient intakes in Germany. S61
Moschandreas J & Kafatos A Food and nutrient intakes of Greek (Cretan) adults. Recent data for food-based dietary guidelines in Greece. S71
Flynn MAT & Kearney JM An approach to the development of food-based dietary guidelines for Ireland. S77

Turrini A, Leclercq C & D'Amicis A Patterns of food and nutrient intakes in Italy and their application to the development of food-based dietary guidelines. S83
Löwik MRH, Hulshof KFAM & Brussaard JH Patterns of food and nutrient intakes of Dutch adults according to intakes of total fat, saturated fatty acids, dietary fibre, and of fruit and vegetables. S91
Graça P Dietary guidelines and food nutrient intakes in Portugal. S99
Serra-Majem L, Ribas L & Ramon JM Compliance with dietary guidelines in the Spanish population. Results from the Catalan Nutrition Survey. S105
Becker W Dietary guidelines and patterns of food and nutrient intake in Sweden. S113
Wearne SJ & Day MJL Clues for the development of food-based dietary guidelines: how are dietary targets being achieved by UK consumers? S119
Becker W, Foley S, Shelley E & Gibney M Energy under-reporting in Swedish and Irish dietary surveys: implications for food-based dietary guidelines. S127
Kearney JM & McElhone S Perceived barriers in trying to eat healthier – results of a pan-EU consumer attitudinal survey. S133
Lambe J & Kearney J The influence of survey duration on estimates of food intakes – relevance for food-based dietary guidelines. S139
Löwik MRH, Hulshof KFAM & Brussaard JH Food-based dietary guidelines: some assumptions tested for the Netherlands. S143
Gibney MJ Development of food-based dietary guidelines: a case-study of fibre intake in Irish women. S151
